Kingdomino score sheet

Write player or team names in the top row.

Names				
Category	Score	Score	Score	Score
Wheat fields				
Forests				
Lakes				
Grasslands				
Swamps				
Mines				
Harmony bonus				
Middle Kingdom bonus				
Total				

After the last domino is placed, score each separate connected territory as its number of squares times its crowns. Sum territories of the same terrain into that category; do not multiply disconnected territories together. Crownless territories score 0. Enter points, not crowns or square counts. Optional variants: Harmony adds 5 for a complete kingdom with no discarded dominoes; Middle Kingdom adds 10 if the castle is centered. Enter 0 for bonuses not used or not earned. Finish manually after all eight categories. Highest total wins. This sheet follows the UK rules; the US second edition omits the crowns tiebreak. Tied on points: largest property, then most crowns; then shared victory.
