Qwixx score sheet

Write player or team names in the top row.

Names				
Category	Score	Score	Score	Score
Red 2-12 crosses				
Yellow 2-12 crosses				
Green 12-2 crosses				
Blue 12-2 crosses				
Penalties				
Total				

Enter the COUNT of crosses in each colour row, including the lock as one extra cross (0-12), and penalties (0-4). Red/yellow run 2 to 12; green/blue run 12 to 2. Cross only from left to right; skipped numbers cannot be marked later. To lock a row you need at least five earlier crosses and must mark its rightmost number, then the lock; only players who mark that number gain the lock cross. A closed colour is closed for everyone. Row points for 1-12 crosses are 1,3,6,10,15,21,28,36,45,55,66,78; each penalty subtracts 5. Play ends immediately on a fourth penalty or the second closed colour (possibly closed by different players). Finish manually then, after entering all counts, including zeros. Highest total wins. This count sheet does not track number positions or global locks.
