Terraforming Mars score sheet

Write player or team names in the top row.

Names				
Category	Score	Score	Score	Score
TR				
Milestones				
Awards				
Greenery				
Cities				
Card VP				
Total				

When oxygen reaches 14%, temperature +8 C and all 9 oceans are placed, finish the generation including production, then convert remaining plants to greenery in player order until nobody can place more. Enter final points: TR; 5 per claimed milestone; funded awards 5 for first and 2 for second (no second-place points with 2 players; tied first each get 5, no second; tied second each get 2); 1 per owned greenery; 1 per adjacent greenery for each owned city, regardless of greenery owner; and all card VP, including resource-based and negative VP. Finish manually after all six categories. Highest total wins. Tied on points: most M€ remaining.
